For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai and English languages, and were approved and authorized for issue by the audit committee, as appointed by the Board of Directors of the Company, on 9 November 2020.

1 General information

Quality Construction Products Public Company Limited, (the "Company"), is incorporated in Thailand and has its registered office at 144 Moo 16, Udomsorayuth Road, Tambol Bangkrasan, Amphur Bang pa-in, Ayutthaya, 13160, Thailand.

The immediate and ultimate parent companies during the financial period were SCG Building Materials Company Limited and The Siam Cement Public Company Limited. Both are incorporated in Thailand.

The principal businesses of the Company are to produce and distribute of autoclaved aerated concrete blocks, reinforced wall panels, floor panels, and lintels for construction uses.

Details of the Company's subsidiary as at 30 September 2020 and 31 December 2019 were as follows:

Name of the entity	Type of business	Country of incorporation / nationality	Ownershi (%)	•
D: 4 1 11			30 September 2020	31 December 2019
Direct subsidiary				
Q-Con Eastern Co., Ltd.	Manufacturer and distributor autoclaved aerated concrete, block, reinforced wall panels, floor panels and lintels for construction uses.	Thailand	100	100

2 Basis of preparation of the interim financial statements

(a) Statement of compliance

The interim financial statements are presented in the same format as the annual financial statements and prepared its notes to the interim financial statements on a condensed basis in accordance with Thai Accounting Standard (TAS) No. 34 "*Interim Financial Reporting*", guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission.

The interim financial statements do not include all of the financial information required for full annual financial statements but focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Company and its subsidiary for the year ended 31 December 2019.

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

The accounting policies and methods of computation applied in these interim financial statements are consistent with those applied in the financial statements for the year ended 31 December 2019 except that the Group has adopted the new and revised TFRSs that are effective for annual periods beginning on or after 1 January 2020. The Group has initially applied TFRS - Financial instruments standards and TFRS 16 Leases and disclosed the impact of changes in accounting policies in note 3.

(b) Functional and presentation currency

The interim financial statements are prepared and presented in Thai Baht, which is the Group's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the interim financial statements to the nearest thousand Baht unless otherwise stated.

(c) Use of estimates and judgements

The preparation of interim financial statements in conformity with TFRSs requires management to make judgments, estimates and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

The significant assumptions in applying the Group's accounting policies and the key sources of estimation were the same as those that applied to the financial statements for the year ended 31 December 2019, except for the judgments and the new key sources of estimation related to the application of new TFRSs and accounting guidance: temporary relief measures for additional accounting options in response to impact from the situation of COVID-19 outbreak.

The significant assumptions and the key sources of estimation included in the following notes:

Note 8, 9	Impairment testing: key assumptions underlying recoverable amounts;
Note 10	Recognition of deferred tax assets: availability of future taxable profit against
	which tax deductible temporary differences and tax losses carried forward can
	be utilized; and
Note 12	Measurement of non-current provisions for defined benefit plans - key actuarial
	assumptions.

According to the situation of COVID-19 outbreak, it is resulted in estimation uncertainty. The Group elected to apply accounting guidance on temporary accounting relief measures for additional accounting options in response to impact from the situation of COVID-19 outbreak for the transaction related to interim financial statements as at 30 September 2020 which is impairment of accounts receivables. The Group considered impairment of trade accounts receivables under simplified approach using historical loss rate for expected credit loss and did not take forward-looking information about the uncertain situation of COVID-19 into account.

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

(d) Basis of consolidation

The interim financial statements for the three-month and nine-month periods ended 30 September 2020 include the accounts of Quality Construction Products Public Company Limited and its subsidiary included in the interim financial statement is Q-CON Eastern Co., Ltd.

All significant intercompany transactions with subsidiary included in the consolidated interim financial statements have been eliminated.

3 Changes in accounting policies

From 1 January 2020, the Group has initially applied TFRS - Financial instruments standards and TFRS 16. Impact of changes in accounting policies are as follows:

(a) TFRS - Financial instruments standards

The Group has adopted TFRS - Financial instruments standards by adjusting the cumulative effects to retained earnings and other components of equity on 1 January 2020 with no restatement of comparative information.

These TFRS - Financial instruments standards establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities. The impact from adoption of TFRS - Financial instruments standards are as follows:

(1) Classification - Financial assets

TFRS 9 classifies financial assets into three categories: measured at amortized cost, fair value to other comprehensive income (FVOCI) and fair value to profit or loss (FVTPL). The standard eliminates the existing classification of held-to-maturity debt securities, available-for-sale securities, trading securities and general investment as specified by TAS 105. The classification under TFRS 9 is based on the cash flow characteristics of the financial asset and the business model in which they are managed. Under TFRS 9, derivatives are measured at FVTPL. It replaces accounting policies of the Group on recognition of revaluation exchange rate at the end of period or when the derivatives were exercised.

The classification - Financial assets under TFRS 9 has no material effect on trade receivables, current investments, and long-term investments.

(2) Measurement at amortized cost

Under TFRS 9, interest income and interest expenses recognized from all financial assets and financial liabilities measured at amortized cost shall be calculated using effective interest rate method. The adoption of TFRS 9 has no material effect on the financial statements of the Group.

(3) Classification - Financial liabilities

TFRS 9 introduces a new classification and measurement approach for financial liabilities consisting of two principal classification categories: amortized cost and FVTPL. A financial liability is classified as financial liabilities measured at FVTPL if it is held for trading, a derivative or designated as such on the initial recognition.

The adoption of TFRS 9 has no material effect on the financial statements of the Group.

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

(4) Hedge accounting

TFRS 9 introduces guidance on hedge accounting while current TFRSs are silent. There are three hedge accounting models and the type of model applied depends on the hedged exposures consisting of a fair value exposure, a cash flow exposure or a foreign currency exposure on a net investment in a foreign operation. Under TFRS 9, the Group is required to ensure that hedge accounting relationships are aligned with the Group's risk management objectives and strategy and to apply a more qualitative and forward-looking approach to assess hedge effectiveness.

Accordingly, TFRS 9 provides an option to apply hedge accounting when the transactions are qualified. At the initial date of the first time adoption, the Group has no effect on this matter.

(5) Impairment - Financial assets

TFRS 9 introduces forward-looking 'expected credit loss' (ECL) model of Financial assets whereas previously the Group estimates allowance for doubtful account by analyzing payment histories and future expectation of customer payment. TFRS 9 requires considerable judgment about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis. The new impairment model applies to financial assets measured at amortized cost or fair value to other comprehensive income, except for investments in equity instruments.

The Group made an assessment of the impairment of financial assets under TFRS 9. This adoption has no material effect on the financial statements of the Group.

(b) TFRS 16 Leases

Previously, the Group, as a lessee, recognized payments made under operating leases in profit or loss on a straight-line basis over the term of the lease. When TFRS 16 is effective from 1 January 2020, it introduces a single lessee accounting model for lessees. A lessee recognizes a right-of-use asset and a lease liability. There are recognition exemptions for short-term leases and leases of low-value items.

The Group applied TFRS 16 for the first time on 1 January 2020 using the modified retrospective approach, by recognizing cumulative impact of right-of-use assets and lease liabilities with no restatement of comparative information. The Group elected to use some practical expedients as stated by TFRS16.

The Group made an assessment of TFRS 16 adoption. On 1 January 2020, the Group recognized the increase in right-of-use assets and lease liabilities on the consolidated and separate financial statements amounted to Baht 47 million and Baht 38 million, respectively. The nature of expenses related to those leases will change as the Group will recognize depreciation of right-of-use assets and interest expenses on lease liabilities. The operating lease commitment as at 31 December 2019 was discounted using the incremental borrowing rate and used of exemption for short-term lease and low-value items lease assets. The Group has recognized lease liabilities as at 1 January 2020 on the consolidated and separate financial statements amounted to Baht 47 million and Baht 38 million, respectively. Incremental borrowing rates on the consolidated and separate financial statements were 2.27% - 2.75% per year.

For the three-month and nine-month periods ended 30 September 2020 (Unaudited)

4 Related parties

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control, common control or joint control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

In the third quarter of 2020, there are no significant change in related parties and pricing policies regarding the consolidated and separate financial statements for the year 2019.

Significant transactions with related parties for the three-month and nine-month periods ended 30 September are summarized as follows:

8 Investment property

During 2020, the company has transferred land, building and equipment to investment property with a net book value totalled Baht 160.7 million. The valuation technique used in measuring the fair value of the asset at the date of transfer were the same as those applied to property, plant and equipment at the reporting date (see in note 9).

9 Property, plant and equipment

Property, plant and equipment under construction

The construction of new plant in Lamphun province has been commenced partially during 2015 - 2016; costs incurred up to the reporting date totalled Baht 240 million (31 December 2019: Baht 240.0 million). In the Board of directors' meeting held on 10 August 2020, the directors approved to the cancellation of the new plant in Lamphun province as the directors has continuously reviewed the investment. The Board of Directors has considered the return on the project and found that it is not worth to invest due to the market situation, therefore the board of directors passed a resolution to approve the termination of the investment. In the third quarter of 2020, the Company appointed an independent professional valuer to review and determined the impairment of property, plant and equipment under construction in Lamphun province. In addition, the Company has performed impairment testing and estimation of the recoverable value of the machines.

An independent professional valuer appraised the fair value of property were determined at Market Data Approach and plant and equipment under construction were determined at Cost Approach. The fair value measurement has been categorized as a Level 3 fair value.

The company performs impairment testing and estimates of the machine's recoverable value. The expected recoverable amount is based on 1) the value in use of the asset and/or 2) the fair value of the asset less cost to sell whichever is higher. The Company determines the recoverable amount of the investment based on the utilized value. The period for which the future cash flow is projected is five years and the growth rate after that based on management's long-term estimates of earnings growth before finance costs, income taxes, depreciation and amortization (EBITDA) to be derived on the avoidable costs and the discount rate is applied based on the company's weighted average cost of capital.

In the third quarter of 2020, the Company recognized impairment losses on property, plant and equipment under construction in Lamphun province totalled Baht 4.7 million and reversed the impairment loss of machinery totalled Baht 10.5 million in profit or loss.

Transfer to investment property

During 2020, the Company has transferred the property, plant and equipment under construction in Lamphun province to an investment property with a net book value totalled Baht 160.7 million due to the Company does not use such assets and determine the purpose of future use.
